5E Series

5E tractors are broken into two groups: Single-Piece Mid-Valve and Stacked Mid-Valve. Most 2024s have the Stacked Mid-Valve but it is not guaranteed. Please reference the pictures below to see which valve kit will fit your needs.

5E - Live 3rd Function - Complete Kits

Tractor and Mid-Valve Type	520M - Open	520M - Cab	540M - Open	540M - Cab
5045, 50, 55, 60, 65, 67, 75 (Single-Piece Mid-Valve)	SW1301C1C	SW1301C1B	SW1301C1E	SW1301C1D
5090, 5100	SW2601C1B	SW2601C1B	SW2601C1D	SW2601C1D
5045, 50, 55, 60, 65, 67, 75 (Stacked Mid-Valve)	SW1301C1F	SW1301C1G	SW1301C1H	SW1301C1I

5E Series

5E 3-Cylinder / Open Station

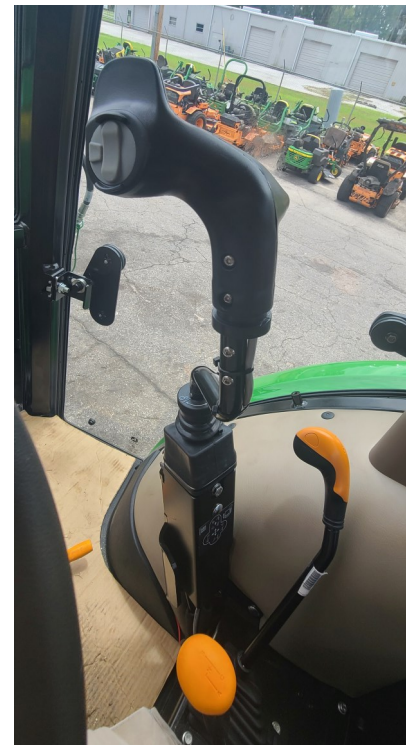

5E 3-Cylinder / Cab

Optional—Continual Flow

3xxxR	SW0823E03A	SW0823E03B

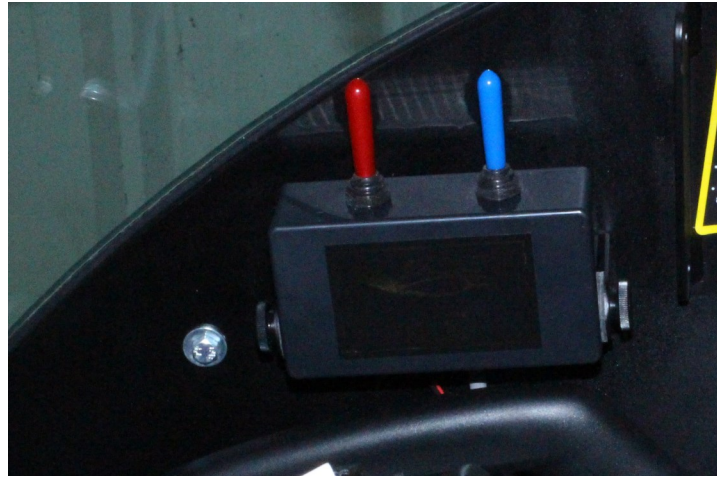

Add additional live directional circuits on any utility tractor that has an electric-over-hydraulic valve installed.

1 Series

Electro-Hydraulic Rear Remotes

Open Station / Cab	2 Circuit	2 Circuit Econo	1 Circuit Econo
1xxx-R	SW700-0632	SW70602E02A	SW0823

Brackets / Accessories

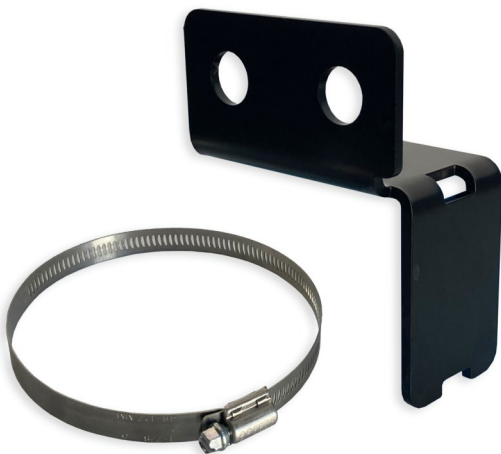

SW320-641 – Torque Tube Bracket

Specifically designed for compatibility with 520M and 540M loaders, our SW320-641 torque tube coupler mounting bracket ensures a secure and efficient installation process.

SW320-735 – Torque Tube Bracket

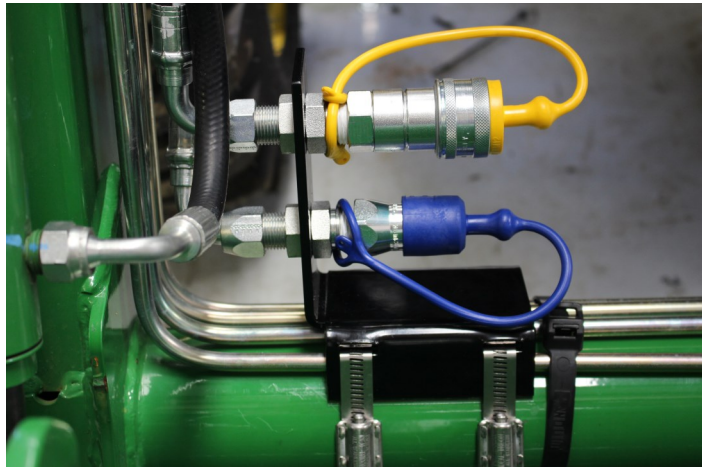

Mounting directly onto the loader torque tube using a single worm-drive pipe clamp, the SW320-735 is ideal for torque tubes featuring metal covers over the existing steel hydraulic lines.

Brackets / Accessories

SW319-310 – Torque Tube Bracket

Designed with ease of installation in mind, the SW319-310 mounts onto the loader torque tube without any drilling or welding. Compatible with torque tubes lacking metal covers

SW321-018 – Saddle Bracket for SW700-2601 Or SWSV30

This a great bracket for adding addition hydraulics to your loader. You are able mount either our SW700-2601 for live directional or a SWSV30 for applications where a diverter is desired. This valve is designed to mount on the Loader Frame that is attached to the tractor.

Brackets / Accessories

SW321-022 - Bulkhead and Flat Face Coupler Kit

Easily add hydraulic connections for your Flat Face Skid Steer attachments on your Fasse 3rd function torque tube brackets. If you already have the 1/2" ISO couplers you can use this as a direct replacement for those couplers. Couplers have -8 NPT female threads.

SW319-318 – Bulkhead and Quick Coupler Kit 1/2" ISO

This 1/2" bulkhead and quick coupler kit is perfect for passthrough coupler mounting in panels and brackets. Includes two -8 size JIC to NPT bulkheads, one female -8 ISO coupler, and one male -8 ISO coupler.
